The **Special Competitive Studies Project** (SCSP) invites you to join the first **AI Expo for National Competitiveness** in Washington, D.C., on May 7–8, 2024, at the D.C. Convention Center. Founded in 2021, SCSP is a bipartisan, not-for-profit project that is the premier institution in Washington D.C. working on technology and national competitiveness.

The Expo will be a first-of-its-kind event in Washington D.C., bringing together leaders in innovation from around the world to spark new conversations on public-private cooperation in critical technology areas.

- **Approximately 200 exhibitors from government, industry, and academic partners will showcase the latest technological breakthroughs** in AI, biotechnology, next generation networks, augmented reality, microelectronics, and beyond.

- **A program of global leaders will speak on the strategic importance that technology holds for national competitiveness**. The lineup will be similar to SCSP's most recent event, the 2023 Global Emerging Technology Summit, which included Nvidia CEO Jensen Huang, Intel CEO Pat Gelsinger, U.S. Secretary of State Antony Blinken, Japanese Minister for Digital Transformation Taro Kono, Ukrainian Minister of Strategic Industries Oleksandr Kamyshin, and others.

- **There will also be a series of exclusive side events on technology and geopolitics,** hosted by leading technology companies, government institutions, and think tanks from around the world.

- **Attendance to the Expo will be free of charge, with approximately 7,000 visitors expected,** including U.S. and foreign government officials, industry representatives, investors, students, and others interested in the intersection of technology and geopolitics.

Concurrently with the Expo, SCSP will also be hosting our second **Ash Carter Exchange on Innovation and National Security**. Attendance to this flagship defense and security event will be by invitation only.

Information about the venue, sponsorship opportunities, and pricing for exhibit floor space is attached.

Please visit our Expo website at https://expo.scsp.ai/ in order to sign up! If you have any questions, please feel free to contact SCSP at fp@scsp.ai and expo@scsp.ai.
